

Quicken for Mac Conversion Instructions

Direct Connect

Introduction

As **BankFinancial** completes its system conversion, you will need to modify your Quicken settings to ensure the smooth transition of your data. Please reference the dates next to each task as this information is time sensitive.

To complete these instructions, you will need your login credentials for Direct Connect.

NOTE: Direct Connect may require registration. Please login to your **BankFinancial** Online Banking account, then go to the =>**Additional Services**< top menu option and select =>**Connectivity for Quicken and QuickBooks**< from the dropdown menu options. Please visit: www.BankFinancial.com to sign into your account.

You should perform the following instructions exactly as described and, in the order, presented. If you do not, your online banking connectivity may stop functioning properly. This conversion should take 15–30 minutes.

Thank you for making these important changes!

This detour symbol indicates instructions in a Task specifically for **Bill Pay within Quicken**. If you do **not** use Quicken to make bill payments, skip that Task.
